

*Do you want to maximize compliance efficiencies?*

## **WE'VE GOT THE SIMPLE SOLUTION RIGHT AT YOUR FINGERTIPS!**

**Now Windows 10  
Compatible!**

### ***Announcing the all-new, convenient solution: Verify+ by Kobetron™***

In jurisdictions worldwide, regulators, suppliers and operators have enough compliance issues to worry about. The last thing you need is to keep track of multiple signature-generators and readers to validate certified software. That's why we created Verify+ by Kobetron™.

Verify+ by Kobetron™ is a next-generation verification tool, putting virtually every new signature method and feature at your fingertips, in one convenient place, empowering you to maximize your compliance and efficiencies with one solution.

#### **Features:**

Verify + contains several essential features which include:

- The newest signature methods available
- Database tables, columns and rows
- Provides full GAT protocol support
- Supports all Kobetron™ and over 35 industry standard signatures
- Supports public algorithms including, but not limited to MD5, SHA-1 and SHA-256

#### **Benefits:**

- One solution, all at your fingertips
- Easily searchable and configurable data
- Simplifies the verification process
- Helps to ensure compliance
- Verification across your entire floor

***Finally, a third-party tool with the  
consistency you've been looking for!***

**PLEASE CALL 844-VER-PLUS (837-7587) FOR FURTHER DETAILS  
ON HOW YOU CAN OBTAIN VERIFY+ BY KOBETRON™ TODAY**

*Testing Tomorrow's Technology Today*
