

GI-4000

GAMING INVESTIGATOR

Overview

The NEW Kobetron™ Gaming Investigator product series offers the GI-4000 Gaming Investigator, a **critical 3rd Party** “hand-held” verification tool specifically designed for a variety of applications such as, a Central System with remote Video Lottery Terminals (VLT’s), Server Based Games or Slot Machines tied to a Back End System.

The Kobetron GI-4000 Gaming Investigator’s ability to verify game programs by acting as a 3rd Party, along with verifying individual memory and CompactFlash devices, sets it apart from any other verification tool.

Features

- ◆ Replaceable Lithium-Ion Battery
- ◆ CompactFlash Card
- ◆ SHA-1 Signature
- ◆ Backlit LCD Display
- ◆ Increased Verification Speed
- ◆ Adapter Compatibility
- ◆ User Defined Settings

Benefits

- ◆ Allows user to quickly change battery pack on the fly.
- ◆ User can verify CompactFlash cards without using a Laptop.
- ◆ Supports 40-digit SHA-1 signatures on gaming devices.
- ◆ User can control backlighting depending on room brightness.
- ◆ Minimizes personnel’s overall time spent for device verification.
- ◆ All existing GI-3000 adapters can be used with the GI-4000.
- ◆ Preferred signature type, baud rate and device verification times can be selected.

Designed for Compliance, Investigation and Audit

The GI-4000 Gaming Investigator utilizes the latest technology to verify game data located in:

- ◆ Memory Devices
- ◆ SIMM Modules
- ◆ Memory Sticks
- ◆ Micro Controllers
- ◆ CompactFlash Cards

High Performance in a Hand-held Unit

The GI-4000 utilizes state of the art Lithium-Ion battery technology, allowing up to 12 hours of continuous use on a full charge. Verification speed has been significantly improved, resulting in some cases, speed increases of up to 90 times faster. A new enhanced and more user friendly menu system requires fewer key strokes, hence speeding up the overall verification process.

Levels of Testing Confidence Expanded

The Kobetron™ GI-4000 expands the testing of game programs in storage devices and provides five (5) levels of testing confidence:

- ◆ Kobetron 4 digit signature
- ◆ Kobetron 8 digit signature
- ◆ Kobetron 40 digit signature
- ◆ SHA-1 40 digit signature
- ◆ Bit-By-Bit Compare

The unique Kobetron™ signatures provide **critical 3rd Party** verification of game data without divulging sensitive data. The multiple methods of verification including Bit by Bit compare detect incorrect data, thus providing conclusive results. Each approved game program can be verified for compliance before and after inserting the program into gaming devices. This assures that only approved programs are residing in Game Machines providing a complete audit trail.

Technical Specifications

- ◆ Supports 2716 thru 27322
- ◆ Dimensions: 7.13” x 4.5” x 2.06”
- ◆ Weight: 1.5 Lbs.
- ◆ Case, Charger & Battery included
- ◆ AC Adapter (Optional)
